STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Bath qualified to vote in Town affairs:

You are hereby notified to meet at the Town Hall in said town on the second Tuesday of March next, at ten o'clock in the forenoon, to act upon the following subjects:

Article 1. To choose a town clerk, one selectman for three years, one trustee of the trust funds for three years, one library trustee for three years, a town treasurer, auditor, one or more highway agents, and all the other necessary town officers and agents for the year ensuing.

Article 2. To hear the reports of officers and agents heretofore chosen, and pass any vote relating thereto.

Article 3. To see how much money the town will vote to raise and appropriate for town officers salaries and expenses; for the repair, maintenance and construction of highways and bridges; for the support of the town library; for the support of the poor; for the observance of Memorial day and Old Home Week; and for all other necessary town charges and expenses for the ensuing year.

Article 4. To see what action the town will take in regard to securing state aid for highways, and to raise and appropriate such sums of money as may be necessary for that purpose.

Article 5. To see if the town will vote to raise and appropriate the sum of four hundred dollars for the control of White Pine Blister Rust.

Article 6. To see what action the town will take

in regard to keeping town highways open for motor traffic during the winter season.

Article 7. To see if the town will vote to accept the sum of Fifty Dollars in trust, to be known as the Edwin Dick Trust Fund, the income from said fund to be used for the care of the Dick lot in the Bath Village cemetery.

Article 8. To see if the town will vote to dispense with the delivery of inventory blanks until April 1st.

Article 9. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 15th day of February, A. D., 1928.

ALBERT H. NELSON,
GLENN H. THAYER,
ROY L. CLOUGH,

Selectmen of Bath.

SCHOOL REPORT

BATH TOWN SCHOOL DISTRICT

Report of the Superintendent of Schools

To the School Board and Citizens of Bath School District:

This is my seventeenth report offered for your consideration, the twenty-first in a series of district superintendents' reports.

It seems desirable to keep a paramount record in the yearly school report of the size of the different schools with the name of the teachers for the current year. For this year the list is as follows: Swiftwater, 30 pupils, Mrs. Elizabeth Hooper; Nutter, 14, Mary Graham; Hibbard, 8, Mary Olds; Pettyboro, 15, Doris Noyes; Carbee, 10, Mildred Day. This makes a total of 77 children actually in school on February 1, 1928. Outside the district nine are registered in Bath High School, four in Woodsville High, three in Lisbon High, three in Woodsville Junior High, two in Woodsville grades, three in Bath Union grades, and one in the Benton school. The district pays the tuition of this latter group with the exception of two in Woodsville Junior High. Landaff is paying the district for three pupils in the Nutter school and Haverhill pays for two at Swiftwater.

Five pupils—Wava Arsenault, Ida Callahan, Norman Carr, Eleanor Stimson, and Jamen Young finished the eighth grade in June. Three of these entered high school.

Twelve pupils were neither absent nor tardy during the school year of 1926-27. These were; Arthur Arsenault, Charlie Arsenault, William Austin, Alice Chamberlin, Carroll Foster Jr., Ida Moulton, Iola Moul-

ton, Oliver Moulton, James Wright, Isabelle Young, Viola Young, Zelene Young. For the school year ending in June 1927 the average attendance was 95.5%. There were 113 tardy marks and an average of 4.2 days lost for bad weather, holidays and teachers' institutes. The number of tardy marks is excessive and for the most part unnecessary. When Waldo Peters, Bernice Smith and Roland Campbell can get from the Nutter district to Bath High School and have perfect attendance there is little excuse for the tardiness of pupils who live under the eaves of the school house.

During the summer a ventilating heater was installed in the Nutter school. The Hibbard school is the only one in the district that does not now have an up-to-date heating system. New outside doors were put in Nutter, Hibbard, and Pettyboro and other general repairs made. Next year repairs should be on the Swiftwater building and the interior made more attractive. This building houses twice as many pupils as any other school house and deserves first consideration for this reason, if no other. A comfortable and attractive schoolroom teaches worth while lessons no less than does the multiplication tables. Getting over to the pupil the right habits, attitudes and ideals is more valuable than teaching him mere facts, for good character is the result of the former and is not necessarily of the latter. A man may know all the facts in the encyclopedia and yet fail in his duty as a man and as a citizen.

Respectfully submitted,

NORMAN J. PAGE,

Superintendent.

BUDGET FOR 1928-29

School District of Bath

School Board's statement of amounts required to support public schools and meet other statutory obligations of the district for the fiscal year beginning July 1, 1928.

Detailed Statement of Expenditures

Support of Schools	Elementary Schools	Total
Teachers' salaries	\$4,500 00

July 6, 1927.

BATH UNION SCHOOL DISTRICT

Report of the Superintendent of Schools

To the School Board and Citizens of Bath Union School District:

The enrollment for the current year is some less than last year with 20 in the high school, 22 in the grammar, and 35 in the primary. There are nine high school and three elementary tuition pupils from the town district included in the above number.

There were eight graduates from the high school in June: Phyllis Bailey, Vera Ball, Frances Braley, Walter Campbell, Howard Campbell, Lawrence Chase, Mabel Goodine, Arthur Tupper. Six pupils completed the work of the eighth grade: Bessie Callahan, Viola Carleton, Lyle Estes, Arthur Hadley, Frederick Knigh-ton, Clarence Reed. Of these four entered the high school in September.

The attendance record for the school year 1926-27 shows an average for the three schools of 96%, a very satisfactory result. However, there were 80 tard-nesses, a large proportion of which were unnecessary. This can not be called a good record. Ten pupils—Allen Aldrich, Robert Aldrich, Roland Campbell, Viola Carleton, Robert Estes, Elizabeth Houston, Waldo Peters, Bernice Smith, Martha Smith, Ellsworth Tup-per, were neither absent nor tardy during the year. They set an excellent example. During the year seven days were lost because of holidays, bad weather, and teachers' institutes. This is one and two fifths out of thirty-six, altogether more time than the successful prosecution of any business would allow. Many school districts at the present time are arranging school terms so as to eliminate school holidays and are con-tracting for an actual 180 days of school. This seems to be a fair proposition in which the community gets

what it pays for and teachers and pupils gives service to the limit of the opportunity.

Wallace D. Black took the place of Headmaster Martin in September. While new to the methods of New Hampshire schools, he is accomplishing excellent results and has fitted well into the community life. I call attention to his excellent report on the high school, especially to his suggestions about the economy and added comfort of burning coal altogether, and the desirability of tight double windows on the basement.

All interested in the school are greatly indebted to Mr. A. N. Blandin for his thoughtful generosity in giving the school district a deed of the river bank bordering in the school playground. This gift makes permanent the protection afforded by the thick forest from the danger of the deep water at the foot of the bank and also keeps unimpaired a delightful bit of natural background for the school building. Steps should be taken to purchase the strip of land, bordering on the school playground, which is now owned by D. S. Stone and which will be for sale as soon as the lumber is removed.

Continued interest in better health conditions was shown by the citizens of the village and tow districts in the generous support they gave to the dental clinic which was held just before the opening of school in August. This was certainly a big advertisement for the helpful interest of the public in the needs of the children. The ordinary school health work is still in the competent hands of Miss Underhill.

I trust that parents are appreciative of the excellent work being done by Miss Ward in the primary room, by Miss Sargent in the grammar room and by Mrs. Chase in the high school. While they may be less in the lime light than Mr. Black they with him deserve some expressed appreciation of their earnest and self-sacrificing service.

Respectfully submitted,
NORMAN J. PAGE.

REPORT OF THE HEADMASTER

To the Superintendent of Schools:
Sir:

I herewith tender my report as Headmaster of the Bath Union High School.

The Bath Union High School opened for the present school year on September 12, 1927 with a total enrollment of 20 pupils, 13 boys and 7 girls. One pupil Waldo V. Peters, a tuition pupil from Swiftwater, resigned January 13, 1928. There is now a total enrollment of 19, and of this number there are 9 tuition pupils from Bath town.

It is unusual and unfortunate for Bath Union High School not to have a graduating class this year. This means that every encouragement should be given by parents and friends to encourage pupils to enter the high school and to continue their studies through the four years of high school. In order to compete successfully in the business world as well as to enjoy fully the best things of life, it is becoming more and more necessary that a child receive at least the education and training which the high school affords. A high school diploma is often the key which unlocks the door to a better job.

From the very first day of school, I found all the pupils very good in their behavior and respectful in every way to their teachers. This reflects not only the excellent training which they have received at home but also the good discipline practiced by my predecessor. Although the pupils vary in their mental capacities for study, most of them seem to be doing their best. And on the whole they are doing good work. Too much emphasis cannot be placed upon the value of homework. It is up to the parents or guardians to plan the home chores and to control the child's

leisure time so that he can do the necessary home work.

The morale of the high school and the other grades has been improved greatly by the painting of the outside of the school building last summer. The school is now very attractive and an object of pride to the whole community. The State School Agent inspected the school building last September and was much impressed with the new paint and the general condition of the school. It is to be hoped that the School Board will have sufficient funds to install the much needed electric lights next summer. The painting was necessary for the protection of the building; the electric lights are necessary for the protection of the childrens' eyes. Although the school schedule since November 1st was arranged so as to close school at 3:30 p. m., the many cloudy and dark afternoons often made electric lights necessary before 2:00 p. m.

General repairs are always necessary, and the suggested repairs are in connection with the heating system. With the exception of a few days the building has been comfortably heated. However, the wood-burning furnace furnishes too uneven a heat and is difficult to regulate. It is suggested that this furnace be changed so as to burn coal, which should be more economical than burning wood. For several years the pipes have frozen in the basement, and this year the pipes to the chemical laboratory could not be used. Well fitted windows and storm windows for the basement would keep the basement warm and rest of the building warmer.

Although many of Bath High School's best and most mature athletes were graduated last June, yet there has been no lack of good material among the remaining and new pupils. They are to be highly commended for their enthusiastic and sustained interest in basket ball, even though they had little hope of winning a

single game. We are too apt to measure athletic results by the winning scores rather than by the benefits which each pupil receives physically. Also the principals of fair play, self control, and sportsmanship are ends in themselves. Practically every pupil has been able to play either basket ball or volley ball this fall and winter. This spring the boys will have a baseball team. The girls cannot play baseball, and it is suggested that a girls' tennis club be formed. The necessary equipment will be provided from the school's athletic funds.

The necessary funds for the financing of the athletic activities have been raised by means of basket ball games, by the Hallowe'en Party, and especially by the play "Sauce for the Goslings," which was given under the able direction of Mrs. Chase. It is expected that the money on hand plus the gate receipts from basket ball games will not only pay all basket ball expenses but also help to supply the equipment necessary for the base ball season.

Great interest has been shown in the affairs of the high school by the parents and friends. This was shown by the occasional visits to the school and especially during American Educational Week and at the Christmas Party, which was given by the combined High School, Grammar School, and Primary School. It is very gratifying to me to report that there has been a hearty cooperation of the other teachers with me in all our various problems and that both Superintendent Page and the School Board have been of great service in many ways besides supplying the school with the necessary supplies and equipment.

Respectfully submitted,

WALLACE D. BLACK.

BUDGET FOR 1927-28

Bath Union School District

School Board's statement of amounts required to support public schools and meet other statutory obligations of the district for the fiscal year beginning July 1, 1928.
